

Statement of Certification (Finding 13)

This document will serve as verification that DFSCA materials are distributed appropriately.

See copies of emails in Attachment Y which were sent to Employees on Wednesday, December 30, 2015 and Tuesday, December 27, 2016. The Vice President of Human Resources and Legal Affairs verified the protocol that when new employees sign the required form acknowledging DFSCA, they are given the same resources that existing employees are given on an annual basis. The paper-based nature of the current practice is in process of being replaced by the same electronic training platform the college is implementing for existing employees through Safe Colleges. While the signed acknowledgement form will remain the same, the resources will be available on-demand at any time.

Also see copies of emails in Attachment Y which were sent to also employees and students on the following dates:

- September 30, 2016
- January 18, 2017
- April 17, 2017
- July 13, 2017
- September 29, 2017

The College realizes that the former DAAPP program which the College employed needs to have improvements. The College is in process of proposing a new Drug and Alcohol Prevention Program that will meet the requirements and intent of Part 86. Current plans are to build campus support and finalize the proposal further and present it to the BOT in March 2018.

The College believes that it has met applicable requirements of Part 86.3 and Part 86.4. The undersigned, on behalf of Green River College, certify that the statements in this letter are correct and affirm the college understands its DFSCA obligations and has and will continue to take all necessary corrective actions to ensure that violations do not recur.

Annual Drug-Free Schools and Communities Act Notification

The Federal Drug-Free Work Place Act of 1988 requires that the recipient of a grant from a federal agency certify to that granting agency that the grantee will provide a drug-free work place.

In addition, the grantee must publish a statement notifying employees that the unlawful manufacture, distribution, dispensation, possession or use of a controlled substance in the grantee's workplace is violation of such prohibition.

Failure to comply with this act may result in suspension, termination or debarment from the award of any federal contract.

Policy Statement

Green River College intends to provide a drug-free work environment. Each employee is expected to report to work in an appropriate mental physical condition to perform his/her assigned duties.

Therefore, the unlawful manufacture, distribution, dispensation, possession or use of a controlled substance in and on Green River College owned and/or controlled property, or while conducting college business, is prohibited.

Violation of this policy will result in disciplinary action being taken in accordance with the Higher Education Personnel Board rules, bargaining unit agreements, tenure laws or other policies of the institution.

Violation will be reason for discipline, up to and including termination of employment, or participation in evaluation treatment for a substance use disorder.

Green River College recognizes drug use and/or dependency to be a health, safety and security problem. Employees needing assistance with problems related to drug or alcohol abuse are encouraged to use the State Employee Assistance Program (1.877.313.4455 or www.hr.wa.gov/EAP) and/or employee medical insurance plans as appropriate. Conscientious efforts to seek such help will not jeopardize employment.

Employees must, as a condition of working on any Green River College contract or grant, abide by the terms of this statement; and notify the employee's supervisor not later than five days after any conviction for a criminal drug statute violation that occurred in the work place.
