LOC Agenda

Tuesday, April 9, 12-1, Salish Hall 1st Floor Conference Room

Discussion of CCSSE Survey

- **Background:** If you remember, Chris Johnson from Institutional Effectiveness presented to us earlier this year the CCSSE survey. He also presented this to the IC in hopes of implementing it this spring. The IC tabled Chris’ proposal saying that the survey needed to be first reviewed by key groups such as the LOC and GDEC to make sure it was a tool that was deemed useful. It will take time out of our classes to administer, and the IC wants to make sure that faculty feel this time is useful to the larger college and instruction.

- **Current Task:** Therefore, the LOC now has a task on its plate. We need to review CCSSE more closely and discuss it in order to recommend/not recommend it to the IC. We will need to have pros/cons of the survey as well as a formal recommendation. This is a task I want to begin early spring quarter, so we can offer the IC some ideas by the end of the year/spring.

To prepare for our meeting on April 9th, I ask that you review the survey using the following link: [http://www.ccsse.org/center/](http://www.ccsse.org/center/). There are tabs for each of the surveys with sample surveys and other information. As you review this, take notes about what you see as the pros and cons of this survey for GRCC. Come ready to discuss this at our meeting on the 9th. I’ll then ask you to take our committee’s review back to your divisions to get their input and additional ideas. Finally, we’ll follow up later in spring with another LOC meeting at which we synthesize our ideas from our divisions and make a final recommendation to the IC.
