Policy Type: Instruction
Policy Title: Visitors in the Classroom
Policy Number: IN-01

**Purpose:** There are many variables and circumstances which could put children and non-students at risk, thereby creating possible liability for the college. In addition, it is unfair to other students in the class for children to be present due to the possibility of disruption or the need to censor academic materials.

**Scope:** Includes children, visitors and non-students.

**Definitions:**
Children: Any person who is 15 years old and younger.
Non-student (visitor): Any person who is not currently enrolled in that GRCC course and does not have the permission of an administrator to visit the class.

**Policy or Procedure:** Visitors (children and non-students) are not allowed in classrooms unless they are enrolled participants in the class and meet all GRCC admissions requirements or have permission in advance from an administrator to visit that class. Children that are on campus for other than educational purposes need to be under parent supervision at all times.

**Specific Authority:**

**Law Implemented:**

**History of Policy or Procedure**
