Career and Technical Education – Green River Community College will provide programs and services that prepare learners for professional and technical career readiness, transitions and advancement.

**Core Objectives**

- **Access** – remove barriers to enrollment in career and technical programs and provide relevant training opportunities
- **Success** – increase support for student progress and completion of their goals while at college, achievement of nationally recognized credentials (where available), and placement in family wage-earning employment after college
- **Equity** – increase accommodation for our students and communities with diverse needs
- **Responsiveness** – increase pace of response to current and emerging employment needs of business and industry and student interests
- **Collaboration** – increase partnerships with K-12 schools, business and industry, community, and College alumni to improve awareness of programs and funding
