-If you do not see your program/major listed, please visit the Career and Advising Center.

Green River Community College

List of Advisors 2008-2009

What can an advisor offer me?

- Assistance in course selection
- Resources regarding prerequisites and course content
- Assistance in professional/career clarification
- Personal campus connection that shares your educational and career interests

How do I get assigned to a faculty or staff advisor?

Each new student is assigned to a faculty advisor based on hi or her program of study. However, if you would like to request a specific faculty advisor or to change your program/major, please make this request to someone in the Career and Advising Center.

How do I reach my faculty advisor?

Call your advisor's extension or contact him or her via e-mail to schedule an appointment. The Career and Advising Center and the building secretaries maintain current office hours for all faculty members.

I'm not sure what I want to major in.

What should I do?

If you are uncertain about your educational direction, meet with a staff member in the Career and Advising Center. Call (253) 833-9111, ext. 2641 to schedule an appointment.

I want to transfer. How can you help me?

The Transfer Center, located in the Career and Advising Center, can offer you valuable information about transferring. In the Transfer Center, you can find the catalogs of the public and private four-year colleges and universities in Washington, applications to most of those institutions, transfer equivalency guides, specific information on various majors, information on foreign language requirements, and requirement sheets for all transfer degrees.

What other support is offered in the Career and Advising Center?

The mission of our center is to foster success by assisting students in the development of meaningful educational plans to fulfill their stated goals. Our staff provides academic and professional/technical advising and planning assistance. The educational planning process will help you to identify and evaluate your academic skills and interests, develop realistic educational plans, interpret institutional and program requirements, and interpret requirements for transfer to four-year institutions.
