

**Auto Body Technology –
Collision Repair**
Certificate of Proficiency
43 Credits

This certificate program prepares students for entry-level employment in the auto body and the collision repair industries. Students are instructed in the basics of auto body repair including structural and non-structural repair and welding through completion of National Automotive Technician Education Foundation (NATEF) certified courses.

This is an open-entry program, and providing space is available, students may enter at any time with instructor's permission.
