

## Auto Body Technology – Paint and Refinishing

Certificate of Proficiency  
43 Credits

This certificate program is intended to prepare students for entry-level employment in the auto body paint shop. Students are instructed in the basics of shop and hazardous material safety, painting, and basic auto body repair through completion of National Automotive Technician Education Foundation (NATEF) certified courses.

This is an open entry program, and providing space is available, students may enter at any time with instructor's permission.
