SUMMER–CLASS TYPE DEFINITION

While we are hoping to return to our regular schedule of instruction for the spring quarter, we are also planning for all possible outcomes. Classes for spring quarter are designated in these five ways:

Modalities with a Face-to-Face Component

Face-to-Face: Class times are listed in the schedule. Classes will meet in a face-to-face format on campus. Based on the state’s response to COVID-19, these courses may shift to virtual, online, or hybrid/virtual using Zoom. Your instructor will let you know prior to the start of fall quarter via your GRC email and Canvas dashboard.

Hybrid: Part of the class will occur in a face-to-face format on campus at the time listed in the class schedule. The other part will be held online without a set time to attend.

If on-campus instruction is not yet allowed by fall quarter, then the face-to-face part of the course will switch to online or virtual using Zoom or other virtual format.
Your instructor will let you know prior to the start of fall quarter via your GRC email and Canvas dashboard.

Modalities with No Face to Face Component

Completely Virtual: Class will meet online at the time listed in the class schedule. For example, if your class begins at 9 a.m. in the class schedule, then it will begin at 9 a.m. on Zoom. You will be attending the class at the same time as your classmates, just as you would on campus.

Virtual Hybrid: Part of the class will be held online without a set time to attend. The other part will occur at the time listed in a virtual format (e.g. Zoom). Your instructor will let you know prior to the start of fall quarter via your GRC email and Canvas dashboard.

Online: The entire class will be held online without a set time to attend. The class will still have assignment deadlines and due dates.

Note: If, due to the state’s response to COVID-19, the teaching modality listed in the class schedule changes before the start of fall quarter, students will be notified by their instructor as soon as possible.

Note: Web registration function is not available after the third day of the quarter (second day for summer quarter) to add a class. Web registration is open for dropping classes through the eighth week of the quarter (fifth week for summer quarter). See Registration Calendar.

Registration access time
You may use Web Registration anytime on or after your scheduled access time, but not before. See Online Services for registration access time.

To register:
1. Go to greenriver.edu/online
2. Select Register for classes
3. Select online registration

Follow the instructions as they appear on the screen to register for the classes of your choice. You will be asked to enter the course item number. This is located to the far left of the course time listed in your class schedule. (See page 12 for example.)
If you are registering for a class that requires permission, instructions will automatically appear on the screen requiring you to enter an entry code.

Entry codes
These are five-digit numbers issued to you by the instructor of the class or by an advisor. They are used as authorization for classes requiring permission or prerequisite satisfaction. Once you have used an entry code, the computer will not accept it again.
Admissions and Registration

To attend class, withdraw from the class online or stop by Admissions and Registration.

Students are responsible for the accuracy of their class schedule. If you are registered for a class that you no longer plan to attend, withdraw from the class online or stop by Admissions and Registration.

Waitlist for full classes – automated system

How do you get into a class that is full?

Entry codes will not allow you to by-pass the waitlist option and register yourself into a full class. The waitlist process works as follows:

- Web or in-person registration will provide the option to waitlist into a full class. All prerequisites must be met to be added to a waitlist.
- You can add your name to three separate waitlists – an example would be math, English and chemistry.
- Cluster classes are moved from the waitlist in the order the students were added.
- Review your schedule every few days via the Web to see if you have been added to the class.
- You are responsible for making sure your schedule is accurate by dropping any unwanted classes. Failure to do so will result in a 0.0 grade being posted to your transcript and possible additional tuition and fees.
- To remove your name from a waitlist:
  1. Go to greenriver.edu/online
  2. Select Waitlist manager

You may also stop by Admissions and Registration to request that your name be removed:

- If you have not moved off the waitlist and into the class by the first day of the quarter, you need to attend the first class session and identify yourself to the instructor.
- Attending the first class session will not guarantee admittance into the class.

Students are responsible for the accuracy of their class schedule. If you are registered for a class that you no longer plan to attend, withdraw from the class online or stop by Admissions and Registration.

Students who fit VA eligibility criteria may use their education benefits for most of our academic programs. An updated list of approved programs can be found on the VA’s website. Full-time enrollment for fall, winter, and spring quarters is 12 credits. Enrollment for Fall terms is based on length of the term elected.

Certification for education benefits will be forwarded to the VA after proof of registration has been received by Veteran Services.

Withdrawal and Refund Rules
Credit classes
It is the student’s responsibility to withdraw from the college or from individual courses. Students must withdraw online or submit a withdrawal/change of schedule form to guarantee the accuracy of their permanent records and to begin refund procedures when applicable. The student may receive a refund under the following conditions:

Percentage of refund
100 percent refund of tuition and fees—When courses or programs are canceled by the college or when a student officially withdraws from class through the fifth instructional day of the quarter.
40 percent refund of tuition only (No fees will be refunded after the 100% refund period ends)—When official withdrawal occurs after the fifth instructional day of the quarter through the end of the refund period (see next bullet).
No refunds—After the 15th calendar day of the quarter. The 15th calendar day is the end of the refund period.

Short-term classes—100% refund of tuition and fees when official withdrawal occurs prior to the first day of class only. Short-term classes are indicated by dates published with the class listing.

Refunds of less than $10 will not be made. Appeals to the withdrawal policy must be submitted to the Office of the Registrar in written form with supporting documents attached. Withdrawal appeals must be received within one year of the quarter in question.

A separate refund policy applies to students receiving financial aid. Tuition refunds must be returned to the financial aid account and not to the student. A separate refund policy applies to students receiving Military Tuition Assistance (TA).

MATHEMATICS—LAB

MATH RESOURCE MODULES—LAB

The Math Division offers a series of 2 credit modules designed to supplement or review topics from MATH 062, 070, 072, 097. These pass/no credit modules by themselves DO NOT meet the prerequisite for the next class. Students will work with a software package for 40 hours (or 20 for one credit) on the topics in mathematics that need review. This will be decided on an individual basis. They will investigate the resources that the Math Division offers, including videos, computers, supplementary books, and/or drop-in tutoring. Students will be required to keep a log of their activities and must document a minimum of 22 hours to receive one credit, 44 hours for two credits. They will also be required to turn in copies of all work associated with the resources. Two written papers will make up the remainder of the time for the course.

You are encouraged to register for a Math Module if:
1. You need extra practice to help you succeed while taking one of the math classes listed above;
or
2. You are not yet taking another math class, but you want to build specific skills to prepare you for a math course.
