CLASS TYPE DEFINITION

As you view the class schedule, you’ll see classes are designated in one of three ways: virtual, hybrid/virtual, or online. The following definitions explain how each type of course will be delivered:

- **VIRTUAL:** Class will meet online at the time listed in the class schedule. For example, if your class begins at 9 a.m. in the class schedule, then it will begin at 9 a.m. on Zoom. You will be attending the class at the same time as your classmates, just as you would on campus.

- **HYBRID/VIRTUAL:** Part of the class will be held online without a set time to attend. The other part will occur at the time listed in a virtual format (e.g. Zoom).

- **ONLINE:** The entire class will be held online without a set time to attend. The class will still have assignment deadlines and due dates.

Payment is due upon registration. If you withdraw less than three business days before your first class, do not attend, or stop attending, you will not receive a refund. A full refund is given if the college cancels a class. Questions? Contact us at 253-333-6030.

## Before You Go - End of Life Planning Workshop

“We’re all going to die, and we don’t know when,” says Rev. Bodhi Be, a mentor of the instructor and director of perhaps the only non-profit funeral home. Given that important and poignant truth, there are many things we can do to prepare ourselves and save our loved ones time and stress. In this class, we will explore legal documentation, practical considerations, relational networks, wishes for your memorial and your body’s disposition, and much more. All of this information is valuable to anyone regardless of age or state of health. The class will also provide free or inexpensive tools to help you complete and maintain your end-of-life preparations.

Data Analyst Certificate Part 1: SQL Server

Python is a versatile and easy-to-use language that’s used in a variety of industries, including data science, retail, marketing, banking and engineering. Learn the basics of Python by exploring the variables, expressions, functions and classes. Create basic programming structures using decisions and loops. Script simple programs using various libraries, including data science, web design and networking. Prerequisite: SQL Server Certificate (4 Class Series) or SQL Server Certificate (3 Class Series) - offered prior to fall 2018 - or proven SQL Server experience, which can be verified via an online SQL Server assessment. Please contact us at 253-833-9111 x 2535 for more information about the assessment. For more information, please refer to our website. If you are taking this course as part of the Data Analyst Certificate, please register for Data Analyst Certificate Part 2: Python Scripting. Note: Please bring a USB flash drive (minimum 2GB) to class, so you can save your work. Fee: $899

SQL Programming Level 1

Microsoft SQL Server has evolved to become a true, enterprise information platform. In this course you’ll learn the fundamental elements of T-SQL, including the definition of DML, DDL, DCL and TCL; use control of flow statements like IF and WHILE; work with NULLs; practice T-SQL programming constructs to query and modify a database in SSMS; identify the different forms of the JOIN clause; filter data using logical queries; and define constraints to enforce data integrity. Prerequisites: Relational Database Concepts and Design. Recommended Textbook (available from Amazon): Beginning SQL Server for Developers, 4th Edition, ISBN: 978-1484202814. For more information, please refer to our website. This is the first required course in the SQL Server Certificate (4 Class Series) and the Data Analyst Certificate Part 1: SQL Server (4 Class Series). The SQL Server Certificate is a prerequisite for the Data Analyst Certificate. Please bring a USB flash drive (minimum 2 GB) to class, so you can save your work. Fee: $249

Student Quote about French Language class:

"I was a little skeptical at first about a zoom language class but it worked surprisingly well. For the past two years I’ve been studying the French Language on my own as both a hobby an interest and my favorite place to travel, this class helped put together the French phrase books and cleared up a lot questions about grammar and answered the how and why a sentence or phrase is put together the way it is."

Retirement Strategies 101

Retirement Strategies 101 is a multiple day, all-inclusive, retirement course that is useful for workers at all stages of their career. Regardless of age, you can learn how to create a financial plan that helps you prepare for retirement and make the most of your retirement dollars. Will you be able to retire early? How long must your money last? What strategies can you use to save money on your taxes? Two CFA® Charter-holders will answer these and other essential planning questions. Topics include retirement needs and expenses, social security maximizations, tax strategies, IRA distributions, investments, estate planning, and more! Virtual delivery textbook included. Fee: $55
