

IT Fundamentals
Certificate of Proficiency
15-17 Credits

The Information Technology Fundamentals certificate is designed to prepare students or career changers for continued studies in information technology by addressing a variety of fundamental technical concepts in server administration, networking, and one other aspect of technology: security, programming, databases, or maintenance. The coursework required for this certificate may also be helpful to individuals whose work requires them to understand technical concepts and terminology, but are not necessarily involved in the same day-to-day work as information technology professionals.

Students must earn a grade of 2.5 or higher on all courses in this program. All of the courses required for this certificate apply towards the Associate of Applied Science-T degree in Information Technology Systems and Security.

Contact: For more information, please contact us at itdegrees@greenriver.edu, (253)833.9111, ext. 4600.
