Advanced Placement Credit (AP)

Green River grants credit in a variety of subject areas for students who have obtained a particular score on their College Board Advanced Placement examinations. These exams are given by the Educational Testing Service at locations around the country. Students must submit an official copy of AP scores. Upon evaluation of those scores, the student will be notified by email of acceptable credits. Credit is posted to the student's transcript at the time of graduation only.

Below is a list of AP tests with consideration for college credit. Grades range from a high of five to a low of one; in most departments, credit and/or placement is awarded for grades of three or higher. In some cases, the student must consult the appropriate department advisor.

Please note that AP scores are subject to re-evaluation at institutions outside the CTC system, including baccalaureate institutions both inside and outside of Washington. Students are encouraged to explore how AP credit may be applied at such institutions if there is an intention to transfer.

Additional Mathematics Note:

The Mathematics Division can award Advanced Placement credits. If students are placed by the Mathematics Division at a level higher than the College Board Placement, they may receive additional credits. If students have not taken the AP Calculus test but have done college-level work in

high school and are placed by the Mathematics Division into either Math& 152 or Math& 163, they may receive additional credits.

Note: When numbers 900 or above are assigned, it indicates that there is no specific Green River course equivalent for all or part of that exam. Credit is awarded by category rather than course specific.

If a student's first mathematics course is Math& 152, they will earn credit for Math& 151. If a student's first mathematics course is Math& 163, they will earn credit for both Math& 151 and Math& 152. Students may apply through the Mathematics Division and receive Mathematics Division Advanced Placement credits by challenging the course and paying the appropriate fees.
