WETRC Presents: Water/Wastewater Utility Confined Space Entry

Who should attend:

- Water and wastewater utility owners, operators and managers
- Backflow assembly testers
- Public works employees
- Safety and health personnel
- Anyone who helps write confined space entry programs
- Anyone who enters confined spaces

Workshop description:

This practical, easy-to-understand workshop covers the essentials of federal and state confined space entry standards. Brief, accurate, step-by-step instructions will help participants comply with regulations, reduce liabilities and avoid costly penalties.

Learn how to:

- Comply with the most recent rule changes and current standards
- Avoid costly and embarrassing penalties for violations
- Discover how WISHA's Confined Space Entry standards affect you
- Recognize confined space hazards
- Conduct air monitoring procedures
- Learn employee and employer responsibilities

Topics:

- Regulations overview
- Identifying types of confined spaces
- Atmospheric and physical hazards
- Characteristics of permit-required and non-permit-required confined spaces
- Supervisor, entrant and attendant duties
- Required elements of confined space entry programs
- Entering permit-required confined spaces
- Entry permits
- Atmospheric monitoring
- Ventilation
- Personal protective equipment
- Initial and refresher training and tailgate briefings
- Work practices
- Rescue and retrieval methods
- Working with contractors
- Alternate entry procedures
- Writing a confined space program
